Portfolio: [baguswedanta.com](https://baguswedanta.com)

## PROFILE

Full-Stack Developer and Technical Lead with experience building scalable web and mobile applications using NextJS, React, Flutter, and modern backend technologies. Experienced in leading development initiatives and delivering content-driven, user-centric systems with a strong interest in Linux-based environments and performance optimization.

## EDUCATION

### Universitas Brawijaya

Undergraduate of Information Technology

August 2023 - Present

GPA: 3.87/4.00

## EXPERIENCE

### Tini Salon

Nov 2025 - Dec 2025

*Web Developer*

- Developed the Tini Salon profile website to present salon information and training programs in a structured and accessible web platform.
- Implemented dynamic pages to display salon course packages, including program details and categories, ensuring clear and accurate information delivery to prospective participants.
- Built a maintainable and scalable web structure that supports content updates and improves overall performance and usability.

Tech Stack: NextJs, Tailwind CSS, Framer

### KBMDSI 2025

May 2025 - Nov 2025

*Lead & Full Stack Developer*

- Developed and maintained the official KBMDSI profile website as a centralized platform to present organizational information, departments, and ongoing activities.
- Implemented an article management feature with 150+ published articles, enabling consistent content distribution and improved information accessibility.
- Built and managed a committee registration system used by 150+ applicants, while also supporting the website as an extension for KBMDSI service promotion and digital outreach.

Tech Stack: Laravel, React, InertiaJs, Mysql

### Coding Services 2025

Jan 2025 - Nov 2025

*Lead Organizer*

- Led the Coding Services program to deliver tailored website solutions supporting the digital needs of KBMDSI departments and improving coordination and information flow.
- Oversaw the planning, development, and delivery of two major platforms: ITFEST Website for national competition management and SOS Website for structured orientation program coordination.
- Strengthened departmental workflows and accessibility through scalable digital solutions, contributing to KBMDSI's broader digital transformation initiatives.

### RAJA BRAWIJAYA 2025

May 2025 - Aug 2025

*Front-end Developer*

- Developed a modern web-based attendance and meal management system for 850+ committee members, supporting QR-code scanning, proof printing, and real-time data synchronization.
- Led the Front-End development using Next.js and Tailwind CSS, delivering a responsive, intuitive, and reliable user interface for on-site event operations.
- Improved operational efficiency by reducing manual errors and accelerating verification and meal distribution workflows during the event.

Tech Stack: NextJS, Tailwind CSS, MariaDB

Front-end Developer

- Developed a responsive and intuitive competition registration interface using Next.js, covering competition categories, team details, grouping, and payment proof upload.
  - Implemented real-time form validation and seamless API integration to ensure accurate data submission and an improved user experience.
  - Optimized frontend performance and user flow, contributing to more than 10,000 website views during the event period.
- Tech Stack: NextJs, Postman, Framer Motion, Tailwind CSS

Full Stack Web Developer

- Developed responsive and user-friendly article pages using React and Tailwind CSS, implementing a secure admin login system with password authentication and hashing.
  - Created a comprehensive Content Management System (CMS) that enables real-time content creation, editing, and management with optimized performance and scalability.
  - Implemented best practice in state management to enhance application maintainability and improve overall user experience.
- Tech stacks: React, Tailwind CSS, InertiaJs, Laravel, MySQL

Front-end Intern Developer

- Developed a responsive company profile video page with an intuitive UI/UX, enabling direct video playback and ensuring smooth access across multiple devices.
  - Implemented an interactive media player with advanced features including playback controls, full screen mode, and adjustable video quality for enhanced user experience.
- Tech stacks: React, Tailwind CSS, Inertia Js, Laravel, MySQL
